

SYSTEM NOTE TEMPLATE

SYSTEM: DIGESTIVE

| ORGAN | BEFORE | AFTER | TYPE OF DIGESTION | COMMENT |
|-----------------|--------|-------|-------------------|---------|
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| Accessory Organ | | | | |
| Accessory Organ | | | | |

Nutrients:

Dehydration Synthesis:

Hydrolysis:

ENDOCRINE SYSTEM

| GLANDS | OVERALL FUNCTION | FEEDBACK SYSTEM | DIABETES |
|--------|------------------|-----------------|----------|
| | | | |

EXCRETORY SYSTEM

| OVERALL FUNCTION | ORGANS | COMMENTS |
|------------------|--------|----------|
| | | |

IMMUNE SYSTEM

| OVERALL FUNCTION | PATHOGEN | TYPE OF WHITE BLOOD CELLS |
|------------------|----------|---------------------------|
| | | |

Specific Defenses

Nonspecific Defenses:

NERVOUS SYSTEM

| OVERALL FUNCTION | ANATOMY OF A NEURON | HOW A SIGNAL IS TRANSMITTED |
|------------------------|---------------------|-----------------------------|
| | | |
| PERIPHERAL VS. CENTRAL | | |
| | | |

SKELETAL SYSTEM

| OVERALL FUNCTION | LONGITUDINAL CROSS-SECTION | CARTILAGE AND LIGAMENT | SKELETAL JOINTS |
|------------------|----------------------------|------------------------|-----------------|
| | | | |

RESPIRATORY SYSTEM

| OVERALL FUNCTION | HOW GAS EXCHANGE OCCURS | HOW AIR ENTERS/EXITS LUNGS |
|------------------|-------------------------|----------------------------|
| | | |

MUSCULAR SYSTEM

| OVERALL FUNCTION | TYPES | SLIDING FILAMENT THEORY | ANTAGONISTIC AND ROLE OF TENDON |
|------------------|-------|-------------------------|---------------------------------|
| | | | |

CIRCULATORY SYSTEM

| PARTS | OVERALL FUNCTION | PATHWAY | PARTS OF BLOOD |
|-------|------------------|---------|----------------|
| | | | |

INTEGUMENTARY SYSTEM

| OVERALL FUNCTION | LAYERS AND PARTS | HOW SKIN REGULATES TEMPERATURE |
|------------------|------------------|--------------------------------|
| | | |
